Oswald's literature dist; Gilberto Gutierez

If we assume that this report is the truth, there is still something to be learned from the negative.

The FBI seems to have sought out or to have reported on those who knew or said nothing. The agents used in this part of the investigations were not the experts. Their names are not the recurring ones.

Others who could and should have been questioned were not (Perry Russo, for example) and what those who saw the distribution reported to me, that Oswald was with a car, for example, was in no way indicated.

Again, no interest in the other Oswald distribution, especially the one most Latins could have been expected to have known about. The obvious benefit of this lack of interest is failing to adduce any information about Bringuier, for one thing, or his associates and activities, his reputation.
